

Cape Regional Chamber

Cape Town Regional Chamber of Commerce and Industry

Anti - Corruption Manifesto

A commitment to combat corruption.

In the interests of the company, its management and staff

Trans Marine Shipping cc

undertake to use their best endeavours to combat corruption.

Believing that corruption weakens the freedom and ability of business to compete efficiently, exposes employees to the threat of criminal sanctions, and engenders dishonesty, the company will pursue a two-pronged anti-corruption strategy.

Firstly, all staff members will be encouraged to refuse unilaterally, to pay or receive bribes and to report to me any attempts to involve them in bribery.

Secondly, the company will publicly condemn bribery, and adopt measures that discourage bribes.

Acting collectively with like-minded organisations, we have pledged our support to the Cape Town Regional Chamber of Commerce and Industry in its efforts to ensure a corruption - free environment.

Signed on this day:
